DETAILED ACTION

1. This Office Action is responsive to the Response filed September 16, 2005. The Examiner acknowledges Applicant's remarks. Claims 37 and 38 are pending.

Allowable Subject Matter

2. Claims 37 and 38 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

An intravascular guidewire having an elongate shaft including a proximal portion having a solid wire that tapers distally and a distal portion having a radiopaque coil tip and a plurality of radiopaque markers disposed on the shaft proximal of the coil tip such that the markers define a plurality of 1.5 cm longitudinal spaces therebetween.

The closest prior art of record comprises U.S. Patent No. 5,169,386 ("Becker"), U.S. Patent No. 4,922,924 ("Gambale") and U.S. Patent No. 4,838,879 ("Tanabe").

Applicant's argument that there is no motivation to combine or modify the aforementioned references has been found persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3736
